Department of Disabilities, Aging and Independent Living
Budget Testimony 2013
Legislative Session

The Department of Disabilities, Aging and Independent Living is responsible for services to elders and Vermonters of all ages with disabilities, except for services directly related to mental health.

Our mission is to make Vermont the best state in which to grow old or live with a disability, with dignity, respect and independence.

DAIL consists of four divisions:

- Division for the Blind and Visually Impaired (DBVI)
- Division of Disability and Aging Services (DDAS)
- Division of Licensing and Protection (DLP)
- Division of Vocational Rehabilitation (DVR)

The Commissioner's Office includes the Deputy Commissioner, an Executive Assistant, the Business Office, the Legal Unit and the State Unit on Aging and Disabilities Operations Team. The Operations Team supports the Department and oversees Older Americans Act and related activities.

Divisions and Major Programs and Performance Outcomes

I. Division for the Blind and Visually Impaired (DBVI) supports life with dignity, respect and independence by providing rehabilitation, vocational and independent living services through 3 major programs. In FFY11 and FFY12 137 people met their goals for employment as outlined in their individualized plans. This results in a rehabilitation rate of 77%, compared to the national average of 67%. In SFY13, DBVI is targeting an 80% rehabilitation rate, including gainful employment and independence as homemakers. (Appropriations 3460010000, 3460030000)

II. Division of Disability and Aging Services (DDAS) supports the mission by providing services for older Vermonters, people with physical disabilities, developmental disabilities, and/or traumatic brain injury, and family caregivers through several major programs: Choices for Care, Attendant Services, Developmental Disabilities Services and Traumatic Brain Injury Services. (Appropriations 3460010000, 3460020000, 3460050000, 3460070000)

Choices for Care (CFC) is designed to support people to live in the settings of their choice. Vermonters who need long-term support services can choose to receive services in their own homes, nursing homes, or enhanced residential care (ERC) homes. Initially, the program's goal was to achieve a balance between people receiving services in nursing homes and home- and community-based settings (HCBS) of 60:40. Having achieved this goal, a new target of 50:50 was established. Vermont's Area Agencies on Aging, Home Health Agencies, Adult Day Programs, Residential Care Homes, and Assisted Living facilities are core partners in achieving these goals. Statewide, Vermont is very close to reaching the target of 50:50. Nine counties have reached the target of 50:50, while five counties have not.

Data source: DAIL SAMS enrollment database

The change in balance is reflected in enrollment trends among different CFC settings.

Data source: DAIL SAMS enrollment database

Enrollment and utilization trends have contributed to CFC savings in the past four years.

Data source: DAIL business office

These savings have supported reinvestments and carryforward funds for future expenditure increases. In this way, we are meeting the goal of our Demonstration Waiver to serve more people, not fewer, by allowing and encouraging more home-based services, thus freeing up funds to serve more people.

Adult Day providers have experienced a long-term trend of increased State payments. However, SFY11 State payments decreased, primarily due to a freeze in enrollment in the Moderate Needs Group. SFY12 payments were close to SFY10 payments.

Data sources: Medicaid paid claims by dates of service, DAIL grant awards

Changes in State payments to Adult Day providers are directly associated with the hours of service provided.

Data sources: Medicaid paid claims by dates of service, DAIL grant awards, and Adult Day provider reports

In SFY13 adult day providers are implementing two outcome/performance measures for the first time: participant depression and caregiver stress. The data will be available by the end of SFY13.

Developmental Disabilities Services are provided by Designated and Specialized Services Agencies with the goal of cost-effective, integrated community living. Vermonters with developmental disabilities continue to be served in the community at modest cost to the state, lower than the other New England states and the national average.

Employment generates a lasting impact for the person and the public by increasing self-sufficiency, and by making a meaningful contribution to Vermont's workforce and economy. Because of this, employment is a core outcome measure within Developmental Disabilities Services (DDS).

In SFY12 DAIL linked outcome-based employment measures to funding incentives and holdbacks in master grant agreements with the Designated Agencies. This past year, the target employment rate for Developmental Disabilities Services was set at 45% for all working age consumers. Three agencies exceeded the target, while thirteen agencies were below the target but achieving progress; the statewide employment rate increased from 36% in SFY10 to 41% in SFY12. Approximately 1,030 out of 2,575 adults served by DDS are in the workforce.

Related employment performance measures for SFY12:

Savings to Social Security	estimated	\$1,440,000
Payroll taxes paid	estimated	\$530,000
Wages earned	estimated	\$3,700,000
Average pay rate		\$9.08 per hour

III. Division of Licensing and Protection (DLP) supports the mission through the activities of 2 units: Survey and Certification and Adult Protective Services (APS).

In SFY12 the Survey and Certification Unit conducted all federally required surveys and maintained its goals for the completion rate of all state surveys. In the remainder of SFY13 & SFY14 DLP will continue to meet its federal requirements and expects to conduct bi-annual surveys for Vermont's state-licensed residences.

In CY12 APS investigated 1,358 allegations of abuse, neglect and exploitation of vulnerable adults. In SFY13 we will establish baseline data through use of our new Harmony APS case tracking system and set performance targets in key areas. (Appropriation 3460010000)

IV. Division of Vocational Rehabilitation (DVR) gets and keeps Vermonters working. It is the core of all our programs. Any person with a disability that creates a barrier to work will find us a willing partner to help them become or remain employed. We tailor our services to each person so that our work is driven by their interests, goals and needs. Our counselors meet regularly and work closely with our motivated clientele to create an individualized plan for employment. (Appropriations 3460010000, 3460040000)

Our continued success at helping Vermonters with employment is a direct result of a sustained effort to cultivate governmental and private partners. DVR led Creative Workforce Solutions (CWS), an AHS initiative that has filled gaps in employment services by eliminating the barriers between service providers and becoming an active partner with employers. CWS created local employment teams that span four departments and seven divisions within these departments. The coordination and teamwork ensures that employers have an easier time interacting with AHS, which in turn leads to a greater willingness to support our customers and better outcomes for all.

Despite the turbulent economic times, DVR continues to perform remarkably well. As the chart below shows, the number of successful employment outcomes has increased 19 of the past 20 years, with 1,791 Vermonters working as a result of our efforts in FFY12.

The attached packet of information includes the forms requested by the Secretary of Administration and the Appropriation Committees that were not included in the AHS Budget Book.
